Name of the organizations may be OUAT or ICAR Institutes I

Technologies identified by KVKs for Implementation of Doubling Farmers' Income in Odisha

Name of the KVK
Most Influencing Technologies for DFI
T1-Feed management (low cost) in dairy cow for enhanced profitability
T2-Semi intensive rearing of elite poultry birds for increase economic generation
T3-Pest management in Rice
T4- Mushroom cultivation
T5- Scientific fingerling production
T1- Hybrid paddy seed production
T2- Scientific fingerling production
T3-Integrated farming system
T4- Mushroom cultivation
T5 Integrated disease management in rice
T6-Feed management (low cost) in dairy cow for enhanced profitability
T7 Crop diversification by pulses like greengram, chickpea
T1-Cultivation of Hybrid maize
T2-Pest management in paddy
T3-Scientific package of practices of water melon with suitable hybrids
T4-Semi intensive rearing of elite poultry birds for increase economic generation
T5-Feeding management and proper vaccination in goat from infectious pathogen
T6- Integrated management of BPH & WBPH in rice
T1-Groundnut seed production
T2 Sucking pest management in vegetable (Tomato, brinjal & Chilli)
T3-Feed management (low cost) in dairy cow for enhanced profitability
T4-Breed upgradation of non descriptive cattle breed with Indegenious bull semen
T5-Mixed fish farming for sustainble income generation
T6-Rearing of Khaki cambell and white pekin duck
T1-Sucking pest management in chilli
T2-High density planting system in cotton
T3-Integrated pest management in cotton

T4-Semi intensive rearing of elite poultry birds for increase economic generation
T5-Feeding management and proper vaccination in goat from infectious pathogen
T6- Integrated management of BPH & WBPH in rice
T7- Integrated management of red spider mite in brinjal
